## > **p**hs Greenleaf: An overview

With over 25 years' experience of providing planting and landscaping services to businesses throughout the UK, we have the knowledge and expertise of providing our services in a variety of sectors including hospitality, retail, facilities management and public sector.

This means you can be sure that **p**hs Greenleaf will provide you with an unrivalled service.

Here at **p**hs Greenleaf we cover it all from interior and exterior planting, to living walls and Christmas trees.

### **DID YOU KNOW?**

We have helped over **6,000** customers

## > Interior planting

**phs Greenleaf understand that image is fundamental to your business and work environment, leaving a lasting impression when a visitor or colleague walks into your workplace or office is important.**

**phs** Greenleaf offer a wide range of real or artificial plants and flowers, from simple desk bowls to stunning large feature plants. We can help you choose and suggest plants based on your premises' environment and light levels.

All you have to do is choose the perfect display for your premises, leaving **phs** Greenleaf's trained and experienced staff to maintain your display and service your indoor plants.

We ensure that the appearance of your workplace is up to highest standard.

Our service includes watering and feeding the plants as well as pruning and cleaning when necessary.

Depending on your requirements and budget, we can offer different levels of service and maintenance to suit your needs.

**WE HAVE**

**116** qualified,  
trained and experienced  
technicians

## > Interior planting

### Collection range

To ensure your office looks the best at all times, our collection range is highly versatile, offering a wide range of plants and pots, improving the appearance of your business.

### Designer range

**phs** Greenleaf's designer range includes a wide selection of indoor office plants and pots creating a striking impression. Our designer range will add colour and impact to your environment, leaving that lasting impression.

### Bespoke range

**phs** Greenleaf's bespoke tailor made office plants are used to create beautiful and unique displays to match the feel for the company's environment. We can match containers to your company's brand colours, making that first impression count.

### Large indoor

Large indoor displays require a level of skill, planning and investment. **phs** Greenleaf can help. Every project is planned with precision. We can help with the design, procurement and installation of your project whatever the size.

### Living walls

Whether you are looking to create an impressive feature or have limited space, a well designed flourishing living wall can make a great statement. Our living walls are perfect for adding colour and texture to your workplace and we can help you design and choose the plants that will best suit your environment.

### Moss walls

Moss walls are a great addition to any workplace, giving the illusion that moss is growing out of the walls. They allow you to make a statement, as they're eye catching and unique. Our moss walls are preserved naturally so do not require any watering or sunlight, making them perfect for all types of interior environments.

**Live pictures**

Live pictures are the perfect feature to enhance the aesthetics of your workplace, as well as the health benefits plants bring. If you have a wall space that needs colour and texture added to it, live pictures are the perfect solution to create an eye-catching display.

**Room dividers**

Plant room dividers are the perfect opportunity to allow large open spaces to be divided into areas of your choice. Not only do these plant dividers add some character to your large area, they also allow spaces to be kept light and open defining each individual area.

**Preserved trees**

Bespoke preserved trees create an impressive and unique feature at the entrance to your premises. Designed and made to customers' specification with a choice of either fabricate or semi natural trees, these displays are the perfect addition to add character to your site.

**Increased greenery in the workplace is known to have a calming effect, reducing feelings of tension and anxiety by 37%\***

## > Exterior planting

**A bright, inviting, well maintained exterior display of flowers could make the difference between your customers walking in or just walking by.**

We understand that you will want to present your premises in the right way to reflect your company, creating an inviting space that's welcoming to staff and visitors alike. Planting and landscaping not only creates impact, it also gives the impression of a thriving and well cared for business.

First impressions really do count when it comes to the exterior of your business.

**phs** Greenleaf offer a full range of exterior services from hanging baskets, outdoor plant displays, large projects to ground maintenance and landscaping.

**phs** Greenleaf have a nationwide team of trained and experienced technicians and can help with the design, procurement and installation of all types and sizes of exterior plant displays.

**phs** Greenleaf can also help with the invasive weed species, where we will identify and assess the problem. We will then give recommendations and suggestions on a practical solution to deal with the problem and present these in a report.

### **DID YOU KNOW?**

we produce over  
**35,000** hanging  
baskets each year

## > Exterior planting

### Outdoor plants

Choose from a large range of outdoor plants and containers to present your premises precisely to suit your business and budget.

We can add seasonal colour, unusual plant specimens or high impact containers.

### Hanging baskets

**phs** Greenleaf provide the largest range of summer and winter hanging baskets, stylish planters and accessories so customers can have a continuous attractive display all year round.

Our commercial hanging baskets provide valuable colour to any premises, creating an inviting and attractive display at any time of year.

### Grounds maintenance and landscape projects

If you are an architect, specifier or someone undertaking a large-scale project, **phs** Greenleaf can help. We can advise on the best suitable planting and help with the design, procurement and installation of your project whatever the size.

We offer a wide range of live plants, containers and even tropical plants.

### Ivy green screens

Ivy green screens are the perfect opportunity to brighten up your outdoor space with an impressive feature. Not only are they low maintenance, they also create a healthier and more active environment by purifying the air through the removal of impurities, temperature control and noise absorbency.

Available in different sizes, ivy green screens can create a statement and lasting impression on your premises.

**phs Greenleaf can provide guidance to help you choose the best designs for your location and budget.**

## > Christmas displays

**As Christmas specialists, we understand what really makes a difference to you and your business during the festive period.**

**phs** Greenleaf provide impressive and inviting indoor Christmas displays. Creating a lasting impression in your workplace has never been easier.

When businesses are at their busiest we will take the strain off your seasonal decoration planning by doing it all for you. Which is why our team are here to create an impressive Christmas display for your premises both inside and out.

**phs** Greenleaf supply a wide range of real and artificial Christmas trees in 10 different designs and everything in between including wreaths, garlands, table top trees and desktop displays.

All our Christmas trees are supplied with indoor Christmas tree lights and a choice of parcels, tree skirt or wicker tree skirt to complete your chosen design.

### **DID YOU KNOW?**

we install over  
**2,500** Christmas  
trees every year

## > Christmas displays

### Luxury range

Our luxury range will ensure that your business and premises will leave a lasting impression on staff, visitors and customers. Our range of luxury trees consists of 3 impressive designs where only the highest quality decorations are used.

This range of Christmas trees are available in sizes 2m, 3m and 3.6m.

### Collection range

Our collection range will ensure that your premises will have a festive feel during the Christmas period. Our range of 7 Christmas collection trees consists of traditional and stylish designs and are available as real and artificial trees.

This range includes some traditional favourites along with some trend led designs. These trees are available in 2m, 3m, 3.6m and 4.5m heights.

## Bespoke

If you're looking for a more personalised display or maybe you would like to match your corporate branding, **phs** Greenleaf can provide you with a bespoke Christmas display.

Our bespoke range is ideal for large offices and shopping centres. From 45ft trees to LED lighting displays we can accommodate buildings of all shapes and sizes.
