With around 8,000 customers

...across the UK, **phs** Greenleaf ensures each customer is assigned an account manager to coordinate every part of the process from initial design to installation.

phs Greenleaf

With over 25 years' experience of providing planting and landscaping services to businesses throughout the UK, we have the knowledge of providing our services in a variety of sectors including, hospitality, retail, facilities management and public sector.

Why choose our bespoke services...

Our bespoke range is the perfect way to create a striking and impressive feature especially in premises with limited space.

phs Greenleaf aim to create an impressive feature in your working space. We offer a wide service of real or artificial plants and flowers, from a simple indoor hanging basket to a large feature living wall. Creating an individual style and statement to your premises is an essential part of your overall business look. Our bespoke range allows you to create your own unique look for your workplace. We can help you choose and suggest what plants would best suit your environment or we can leave the designing completely up to you.

We provide...

Expertise

Our team have the experience to design and deliver plant displays that best suit your environment, light and colour scheme.

Quality

Plants are sourced from MPS certified growers who are committed to sustainable CSR programmes.

Service

We will design, install and service the plant displays to ensure they always look their best.

Living walls

Indoor living walls turn a stressful workspace into a attractive and positive environment.

A well-designed flourishing living wall is the perfect feature to make that lasting impression in a workplace. Our living walls are perfect for adding colour and texture to your workplace. We can help you design and choose the plants to fit your requirement.

The living wall is fitted to your wall with our unique bracket system where your plants can grow and flourish.

Benefits :

- Watering system lasts up to 4 weeks
- Boosts productivity
- Eye-catching feature
- Adds texture to the wall
- Creates a more relaxing environment
- Help filter and combat computer emissions
- Reduces noise level
- Available in real or artificial flowers

Sizing :

A wall can be built in different ways to fill the space you require, either by using our 8 standard sizes or by choosing to have a bespoke design which can be produced to order.

Our living walls are available in - (W x H mm) :

➤ Bespoke designs to suit you

Outdoor living walls

phs Greenleaf living walls are suitable for interior and exterior spaces.

Add a striking feature to the outside of your building. Outdoor living walls are perfect for adding colour and texture to a boring space. Whether you need to disguise eyesores, reinvent urban landscapes or enhance any cityscape, we will help you design and choose the plants that will best suit your project.

What is involved in maintaining a living wall?

Service visits are set at 16 per annum, which includes everything from watering (if this isn't plumbed in), deadheading the plants, cleaning the foliage and feeding the plants (if required).

The cost of a living wall depends on the detailing and design you choose. If you would like to enquire about your project, contact our team for a free quote on **0800 090 2325**.

Benefits :

- Protects your exterior walls from harsh weather conditions
- Shows a forward thinking and eco responsible corporate ethos
- Stand out from competitors and attract new customers
- Add natural sound insulation
- Available in real or artificial flowers
- Our modular system makes installation and maintenance easy

➤ Create a striking and **impressive feature**

Moss wall

A moss wall is a great feature to any workplace, giving the illusion that moss is growing out of the walls. This is a great way to make a statement in any working environment, making your premises look modern and unique.

Our moss walls are preserved naturally so do not require any watering or sunlight, making them perfect for all types of interior environments. These are particularly good for an environment that doesn't get much sunlight and a busy workplace where maintenance on the plant isn't top of priority.

phs Greenleaf moss walls can be put together similar to the living wall. They are available in 8 sizes or a bespoke panelling can be made in order to suit your specific requirements.

Benefits:

- Easy to maintain
- Boosts productivity
- Reduces noise level
- Eye-catching feature
- Adds texture to walls
- Creates a more relaxing environment
- Zero maintenance

Our moss walls are available in sizes - (W x H mm) :

The types of moss that are available to choose from:

1. Bun moss

Widely used for its raised appearance and unique texture.

- Can fit any size wall or frame
- For interior use only
- Only available in green

2. Reindeer Moss:

Can be coloured to match your company's logo and branding.

- Can fit any size wall or frame
- For interior use only
- Available in a variety of colours

These can be used singly or in conjunction with each other to create the design that suits your space.

Room dividers

Plant room dividers are perfect way to divide large open spaces into areas of your choice. Segregating areas creates character and allows light to flow through the space.

A room divider can help contain and absorb echoing in a large workspace. Reception areas and places that are open to the public often use room dividers as partitions to guide visitors, creating a welcoming and attractive first impression.

The room dividers are available in different shapes and sizes to fit into your workspace. Low room dividers are perfect for seating areas to create the illusion of a different space.

Benefits:

- Versatile addition to an office design
- Different sizes available
- Easily relocated
- Reduce noise level
- Eye-catching feature
- Boosts productivity

➤ Plants are an **easy way to style** up even the most boring of spaces

Indoor hanging baskets

Why not stand out from the crowd with our indoor hanging baskets?

A indoor hanging basket is the perfect and trendy way to make a feature in a small space. Not only are indoor hanging baskets aesthetically pleasing, they are perfect for large spaces and high ceilings. This creates a warmer welcoming environment making an area not feel as bare and cold.

Benefits:

- Eye-catching feature
- Adds texture to a ceiling
- Easy to maintain
- Boosts productivity

➤ Perfect for **limited space**
