**phs** Greenleaf will maintain the planting displays and manage the watering system throughout the seasons.

---

A vibrant hanging basket or display can make the difference between customers walking in or walking by.

---

If you're looking for a way to brighten up your outdoor space and impress your clients, hanging baskets are a simple method that leads to a great impact.

With over 25 years' experience, **phs** Greenleaf have expert technicians with experience and skills to develop and maintain stunning floral hanging displays that create a great first impression.

### Enhance your exterior

**phs** Greenleaf will work with you to choose hanging baskets that suit your environment and brand personality.

### You won't have to lift a finger

A highly skilled horticultural team will undertake regular maintenance visits, ensuring your baskets always look their best.

With an extensive range of sustainably sourced plants, colours, and styles available to suit any space and budget.

### A sustainable choice

All **phs** Greenleaf basket liners are made from recyclable materials, including milk crates, and are recycled again at the end of the season. The baskets also boast an innovative design that reduces water loss

Any green waste from your peat-free hanging baskets and containers will be turned into biofuel energy. Helping **phs** Greenleaf save 136kg of CO<sub>2</sub> a year.
